Orderkit™

Online orders, without the *hefty fees*

Give your customers a seamless ordering experience while you keep 100% of every sale. No commission fees, no hidden costs, just your brand, your customers, your revenue.

0%
Commission on every order

Days
To go live, not weeks

No Contracts

WHAT YOU GET

Everything you need to run ordering in-house

0% Commission

Keep every penny of every sale, no commission, ever.

No Hardware or Setup Fees

Go live on the devices you already own, no new hardware or setup costs.

Your Brand

Every order happens on your own branded site and app, not a marketplace.

Customer Data

Every customer record is yours to keep, not someone else's platform.

Bigger Average Orders

AI-powered upsells appear at checkout, growing your average order value.

Repeat Customers

Built-in loyalty keeps customers ordering direct with you, again and again.

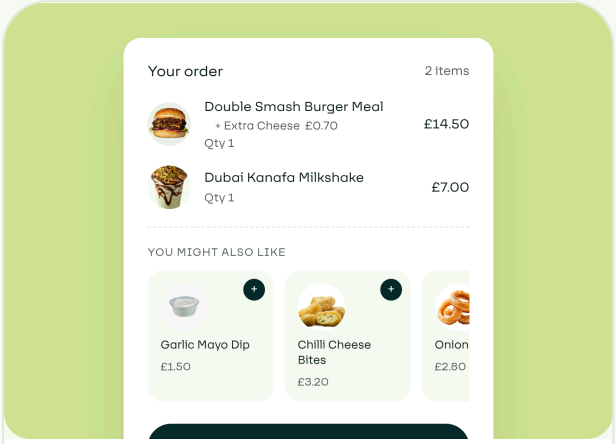

SOLUTIONS

One platform, every way your customers order

Pickup & Delivery	Let customers order ahead for pickup or get it delivered straight to their door, all through your own branded ordering site.
QR Table Ordering	Guests scan a code at the table, browse the menu, and order straight from their phone. No app, no waiting to flag someone down.
POS & Kiosks	A fast, intuitive point of sale for the counter. Ring up orders, take payment, and keep the queue moving, all from one screen.
Card Terminals	Take payments in person with card terminals that just work, right at the counter or the table.
Caller ID	See who's calling before you pick up. The caller's name, number and order history pop up automatically.

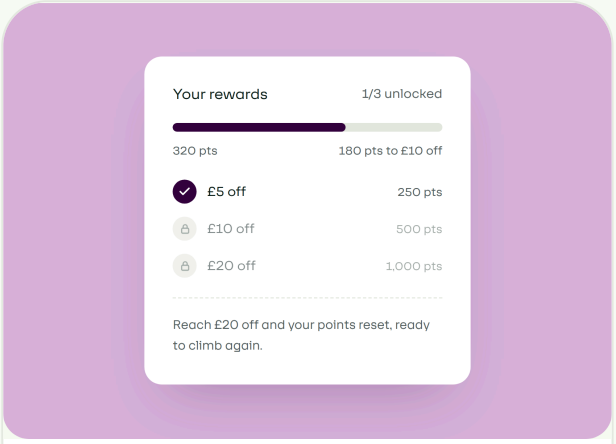

INTELLIGENT FEATURES

Intelligence that works while you don't

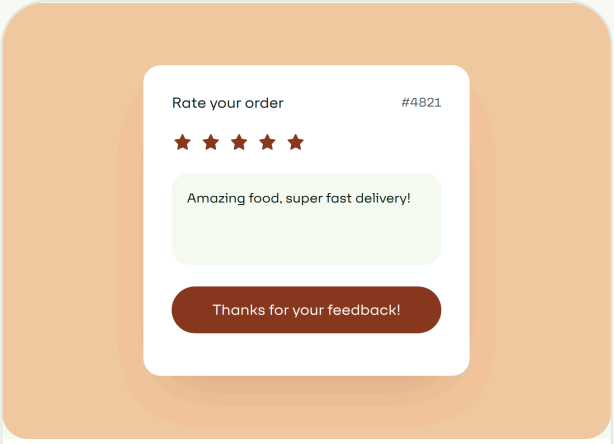

AI Upsells

Smart upsell suggestions appear automatically at checkout, trained on your menu.

Loyalty & Rewards

Customers earn points on every order, unlocking rewards automatically.

Automated Reviews

Review requests send themselves the moment an order lands, building your reputation.

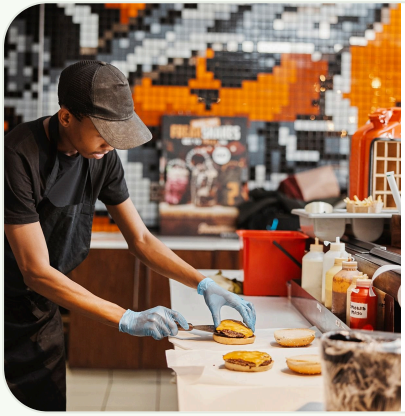

FEATURES

Meet your store's intelligent toolkit

Menu Management	Build and update your menu in minutes, from prices and modifiers to photos and descriptions, synced across every ordering channel instantly.
Breakfast, Dinner & Lunch	Set different menus and item availability by time of day, so breakfast, lunch and dinner each show exactly what's on offer, automatically.
Discounts & Offers	Run percentage or fixed discounts, time-limited offers and promo codes, applied automatically at checkout to drive more orders.
Delivery Zones	Draw delivery zones straight onto the map, each with its own charge and minimum spend, or go street by street with postcode rules.
Email & SMS	Reach your entire customer base with a few clicks. Send promotions, announce new menu items, and drive repeat orders, all from one place.

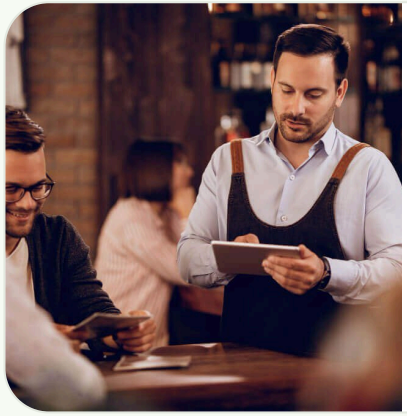

INDUSTRIES

Built for every kind of kitchen

Takeaway's

Built for the rush of a Friday night, with fast checkout and tickets that print straight to the kitchen.

Restaurants

QR table ordering, POS and delivery zones work together, so dine-in and online never collide.

Cafés & Bars

Mobile pre-ordering and quick-tap kiosks keep regulars moving, with upsells built in.

Ghost Kitchens

Run several delivery-only brands from one kitchen, with tickets organised by brand and platform.

INTEGRATIONS

Works with the tools you already run on

Orderkit connects natively with the payment, communications, mapping and infrastructure providers you already trust, so nothing needs replacing, only connecting.

stripe

Secure card payments, payouts and fraud protection built in.

twilio

SMS and voice notifications that keep customers in the loop.

Google Maps

Live delivery zones, addresses and routing that just work.

aws

Enterprise-grade infrastructure behind every order, every time.

shipday

Driver dispatch and live delivery tracking, end to end.

Postmark

Reliable transactional email, from receipts to review requests.

PRICING

Simple, honest pricing

No contracts. Cancel any time.

INSTANT PAYOUTS

Need funds sooner? Cash out instantly for a 1% fee (charged by processor), up to £10,000 and 10 payouts a day, once you've been processing with us for 60 days.

Launch

MOST POPULAR

Grow

For QSR brands ready to grow

£99 per month

0% commission per order

- Everything in Launch
- QR Table Ordering
- Point of Sale (POS)
- Card Readers & Terminals
- 300 SMS texts / month
  then 5p per text
- 1,000 emails / month
  then 1.5p per email

Scale

For busy, high-volume restaurants and brands

£149 per month

0% commission per order

- Everything in Launch & Grow
- Kiosks / Self-Service
- Caller ID
- 600 SMS texts / month
  then 5p per text
- 2,000 emails / month
  then 1.5p per email

Orderkit is not VAT registered, so no VAT is added to these prices. Every plan adds a flat 80p service charge per order, paid by the customer. A payment processing fee of 1.5% + 20p per order (card orders only) is deducted directly by the payment processor - Orderkit never receives or takes a cut of this fee.

Orderkit™

Sell. Grow. Keep.

Getting started with Orderkit is easy, and it's always 0% commission.
